TO THE WEST! TO THE WEST!

Before making your arrangements to follow the advice of the "thousands who have already gone," it would be we'll to consider what has been done to make the journey to your "Homes in the West" as pleasant and free from danger as human skill and foresight can accomplish.

By consolidation and construction, a road

has been put into operation on the shortest possible line from Nashville, Tenn., to St. Louis, "the future great City of the world." This line, the ST. LOUIS & SOUTHEASTERN RAIL-

MILE STAW IES. has, during the past year, carned an envia

ble reputation by its smooth track, prompt time, sure connections, and the magnifi-cence of its passenger equipment. Its Address, Unique Printing House, 36 Vesey trains are made up of new and commodious day cars, provided with the celebrated Miller coupler and platform, and the Westing-It is possitively the only line running

Pullman Palace Drawing-Boom Sleepin Cars through without change from Nashville to St. Louis. No other line pretend to offer such advantages, either in distance, time, or equipment. Why, then, journey by circuitous routes? Do not be induced to purchase tickets to St. Louis or the West by any other line, remember that

The "St. Louis & Southeastern" is the shortest, chespest, quickest, best and only line under one management from Nashville to St. Louis, and is from 60 to 200 miles the shortest to St. Louis, Kansas City, Omaha, Denver, California, Texas, and all western points. It is also the "Chicago Shortest Line," via Evansville.

You can secure the cheapest rates for yourselves and your movables on application, in person or by letter, to CHARLES McCass, Southern Passenger Agent, near College street Depot, Nashville, Tenn., or

THE editor of the Raleigh Sentine wishes that the ladies would agree not to "purchase dry goods after 6 o'clock p. m., provided the dealers will close their stores at that hour." This is Irish enough to suit the greenest "Finnegan" in the land.

THE Statesville Intelligencer remarkcth thusly:

The Wilmington Post threatens to be a dangerous (?) rival of Brick Pomeroy on 'Saturday night sketches.'"

We regret that our friend failed to particularize and tell us wherein the resemblance is seen. Brick is a slanderer, but we are not. He is a redmouthed Democrat, but we are not .-Brick is a vulgar writer, but we are not. Brick is ---, well everybody knows what he is, all of which we are not.-Enlarge, brother Jones, enlarge. Rise and explain.

THE importance of home patronage is gradually impressing itself upon our citizens, which we consider a good sign. When this rule is rigidly adhered to, we will see marked improvements in our financial affairs. Self-protection actually demands that we carry out this principle as thoroughly as possible.-The manufactories of this city pay weekly to their hands several thousand dollars, which finds its way directly to our merchants. They are doing great good here, and should be lightly taxed. We have the Wilmington Building Compaerecting handsome buildings in a substantial manner, and it has proved its ability to perform first class work. It should be extensively patronized. The Carolina Central Road, though owned by Northern capitalists, is managed upon this principle of home patronage, and the Wilmington Building Company is building a large number of cars for the Road. This Company, believing in the same principle, purchases all the thousand dollars brought here and kept in circulation that otherwise would be in the pockets of Northern merchants.

This system is important to every one owes D, and D owes A is applicable .back to D, from whom it started. Thus one amount of money paid four debts. But if A had contracted with individuals would have been a break in the chain, and the debts of the others might be lost. The great theory of self-preservation is, to patronize those who patronize you. By this means we can build up the old North State to the position its square miles, products, and intelligence entitle

The Danbury man don't "come off" so easy in London. Of his book the Athenaeum writes:—"After about a hundred and fifty pages of oddity and extravagance which become exceedingly dull and wearisome, we arrive at the close of the first part. DELICATELY DONE .- The Chattanooga Times gives a narrative embody ing the following: "There was something of a delicate and private nature going forward about the house, visible to the commonest observer. But love and its devotees are proverbially blind. So he stayed and stayed until late in the evening, when one of our prominent physicians stepped from another room into the parlor where the youth and eldest daughter of the house were billing and cooing, and blurted out: 'Well, young man, if you're done courting, you can have a turn at nursing to get your ing the following: "There was some can have a turn at nursing to get your hand in. There's another very young girl in the next room."

In reference to the proposed balloon enterprise, Professor Wise, in conversation, says the balloon was rotten, and that the finger could be easily pushed through it, especially in one section.-He had told the Goodsells if they would allow him to weigh the balloon, and if it did not lose more than one pound an hour, he would take charge of it and sail off. He further said that ny in this city, which has done much the balloon was constructed in entire for the improvement of the city by disregard of his instructions, and having rotted from rain and exposure would beyond doubt, have burst by the second day. He had tried to give character to the enterprise, but thought the managers merely wanted to use him as a figurehead, and then tell him that they could do without him.

> CORRESPONDENCE. SMITHVILLE, Brunswick co. N. C.

September 11th, 1873 To the Honorable the Foreign Ya Vice Consuls of Wilmington GENTLEMEN : Permit the undersign ed cordially to appeal to your known and appreciated Consular energy in its evident bearing upon the commercial prosperity of Wilmington, and to re-Great Eastern is expected to arrive quest your leading co-operation as business men of established reputation, on behalf of the commercial necessity of tel egraphic communication between your city and mine. In daily contact with the shipping interest of our port, I have gained the assurance of speaking the literal truth, when pointing to the above want of interchange as the chief impediment in the way of intercourse with foreign markets. Owing to the low, now slowly but surely improving capacity of our bar and river-bed, fully onethird of the cargo of all out-bound vessels, and frequently of those in-bound also, is shipped here from on lighters but the time and expense of lightering are mainly dependent upon rapid exchange of orders and messages between vessels here and their consignees, brokers and consuls in Wilmington. "We are brought to your port," say intelligent seafaring men, "by your price of freight, but are deterred from coming again by the inconvenience and the time and money it takes to get our full cargo on board. With neither rail nor steam to Wilmington, your semi-weekly

mail is simply an outrage as means to-

ward saving-what to us shippers is

even more than money-time." It is

indeed, evident, that next to good freight

and the good hope of an improved bar,

there can be no better inducement of-

fered to foreign shipping than the pro-

lightering, ready towage, and handy

pilotage to and fro, all of which, under

the circumstances, are attainable only

through telegraphic interchange. Safe-

ty, too, lifts its voice in favor of the

Sapolio not lots-Smithville-I have no suggestions to obtrude to your practical business talent and experience, in regard to either the modus operandi or the means to be employed in establishing this great need. E. M. ROSAFY, Inspectory THE SWORD AND THE PEN. The word of the warrior was taken down for the purpose of being polished. It had not been long out of use. The rust was rubbed off, but there were spots that would not go—they were of blood. The sword was placed on the table, near the pen of the warrior's secretary. The pen took advantage of the first breath of air to move a little further off. "Thou art right," said the sword, "I am a bad neighbor." "I fear thee not," replied the pen, "I am more powerful than thou art; but I love not thy societies." "I are the sword." " "I exterminate," said the sword. And I perpetuate," answered the pen; "where are thy victories if I recorded them not? Even where thou thyself

R. R. warehouse, and stealing therefrom a box containing shoes.

The Goldsboro Messenger learns from its Greene county correspondent that a few days ago, while Mr. Long, a carpenter, was engaged in taking out some ceiling in a house owned by Mr. W. C. Hadley, he found a bag containing \$27 in specie and a four dollar bill in old continental money, bearing date of 1776. The house is supposed to have been occupied about that time by a Mr. Lemuel Hardy, and the money was probably placed between the ceilings to hide it from the British.

The Raleigh News tell of a fire that occurred at Camp Russell, near that eity, on Saturday night at ten o'clock, stroyed. Lt. DeRussy lost from \$800 to \$1,000 by the removal of furniture, &c. We regret to learn that there was great insubordination and disorderly companies, two of which left the scene against the express orders of the Chief Engineer for them not to do so. The matter is to be investigated.

GRAND HAVEN, September 16. The propeller Iron Sides, of the Englemann line, connecting with the Detroit and Milwaukee railway, and one of the largest steamers on the Lakes, foundered and sunk seven miles off this port at noon to-day. Her signal of distress was hoisted at 9 a. m., but so terrible was the sea and heavy the wind no assistance could reach her. She labored in the trough of the sea from about 8:30 a. m., until the time she sunk. The passengers had prepared the boats to leave her at 10:30 o'clock and the last boat left at 11:50. When the last boat had got about a quarter of a mile from her she went down. There were five boats filled with the crew and passengers and one boat containing five men and four women capsized and only one man of the party reached the shore. Four boats have reached shore up to this time. One boat containing Capt. Sweetman and wife, and four passengers has not yet been heard from. It is feared they, are among the lost. Thirty-two passengers are known to have been saved, and fourteen bodies recovered .-No Southerners.

GRAND RAPIDS, Sept. 15-Midnight. The express train going east on the Detroit and Milwaukie Railroad, which left Grand Rapids at 6:30 o'clock p. m., consisting of thirteen coaches and one baggage car, ran off the track between Lowell and Ada. It is rumored that the entire train went into a ditch, killing twenty persons and wounding many others. Physicians are now leaving for the scene of the disaster, and preparations are being hastily made for the relief of the sufferers.

The Times says that Father O'Farrell, pastor of St. Peter's Roman Catholic Church, informed his parishioners on Sunday last that he wished to retract anything dictatorial he may have said by which the officers' quarters were de- to them during his canvass of the parish for pupils for his new parochial school, and adds: This action on the part of the Rev. O'Farrell is said to have been the result of an intimation from the auconduct on the part of some of the fire thorities of the Catholic Church that the extreme measures resorted to by him were not approved.

The Commissioners of Education have taken an intense interest in the affairs of the first ward public school, the existence of which had been threatened by the clergy of St. Peter's Church, and have expressed their firm intention to uphold in that ward, at all hazards, the system of public instruction which has been so persistently assailed.

C. P. Knight, Esq.—Dear Sir: I have used Bradley's Patent Enamel Paint on m dwelling last Spring, and am much pleased with it, and it looks as well now as whe first painted, and consider it a good Paint.

Creswell P. O., Hartford county, Md., Feb. 6th, 1873.

A. H. STRASBAUGH.

Mr. G. P. Knight—Sir: The Paint came safely to hand as ordered—two kegs, five gallons each, and three buckets, one gallon each. As practice was slack, I did the job myself. Two weeks, (not constant work,) completed the honse two costs. The last cost I applied thick, and it is now generally conceded that for enamel—like hardness, and body, and harmony of colors, there is not a handsomer job in the place. I saved sixty-live dollars by the operation, which is an Item just now with Southern people. It should be generally adopted in this State. Any country lad can apply it. I have never dabbled in such stock as testimonials, but I feel so forcibly the great adaptability of your "Inamel Paint" to the wants of our people, in excellency of material, in beauty of color, and in the fact of its being "ready mixed" that I give you free permission, (it it is desirable to you,) to make what use you think proper of this letter.

Very respectfully and truly, "S. McGILL, M. D.

To the Public—It effords me much pleasure to state that in July, 1871, Front Street Theare was painted inside and out with Bradley's Patent Enamel Paint," for which C. P. Knight, No. 93 West Lombard Street, is agent, and, to teatify to its superiority over any and all other paints for similar uses. In approvate dwelling can paint possibly be subjected to the very severe test it undergoes at this establishment, where during our dark cleaning, soan and soda are constantly applied to it, and yet it appears a sound and tresh as when put on. Of the numerous advantages it possesses over other paints, its quickly drying properties, which saves much time in the execution of work were paint is needed, and its very perceptible tenseity, which imparts beauty and durability to the objects on which it is used As such I most expressly recommend to the merchants and tradesmen of our city, believing it will give them greater satisfaction than they can possibly anticipate.

BALTIMORE, April 25, 1873.

Mr. C. P. Knight—Dear Sic:—The paints we received from you have been applied to several of our own buildings and to those of our friends, and have given entire satisfaction in covering qualities, in gloss, and in adaptability to all kinds of surface of material and we cheerfully recommend it, especially to that class of consumers who have to depend upon unknown parties, or painters to mix and furnish materials, wherein we have found the most deception.

[CHAMBERSBURG, December 10th, 1872.

Yours, truly, Mr. C. P. Knight:—At the recommendation of a triend, I was induced to apply your patent "Bradley's" paint to my house. I have pleasure in stating that it has proved highly satisfactory, covering more surface than you promised, is more economical, carries better gloss than ordinary paint, and is freer from disagreeable odor.

Yours, Respectfully, mill to martin

C. P. Knight, Esq., Agent for Bradley's Patent Edamel Paint Dear Sir:—The paint we purchased from you we will cheefully endorse as the best of any kind we have ever used; its covering qualities is everything desired drying promptly and with a hard gloss which must, we think, resist the action of all k nds of weather. This is our experience, and we can recommend it with certainty, and intend to use it on all occasions where we desire a good job of work. EMART & QUARTLEY, 270 W. Baltimore St.

NOTICES OF THE PRESS. The ever-increasing circulation of this

excellent monthly, proves its continued adaptation to popular desires and needs.—Iudeed, when we think into how many homes it penetrates every month, we must consider it as one of the educators as well as entertainers of the public mind, for its vast popularity has been won by no appeal to stupid projudices or deprayed lastes.

The character which this Magazine possesses for variety, enterprise, artistic wealth, and literary culture that has kept pace with if it has not led the times, should cause its conductors to regard it with justifiable complacency. It also entitles them to a great claim upon the public gratitude. The Magazine has done good and not evil all the days of its life .- Brooklyn Eagle.
